FRIDAY, MAY 19, 1911.

It is getting pretty hard to tell one lie from another.

You do not have to be a "stick" to be a spoke in the wheels of progress.

When a woman gets rigged out with a new lid and gown, the calls she has been neglecting begin to bother her conscience.

Many a man who can't paddle his own canoe thinks he is qualified to furnish the motive power for the ship of state, and can always give valuable pointers to the country editor.

The Lord does not always provide but he will get behind and push the fellow who goes after what he wants, providing the man is working an honest game.

Be a booster to day, to-morrow and ever on. It is progressive spirit that prompts the booster. If you can't be a booster you had better pass into the beautiful beyond.

You don't have to go to war to be patriotic. Improve your locality, uphold your town, enlarge its interests and lend a hand to progress and you are a patriot—a lover of your country as truly as the soldier who shoulders his musket.

There are at least two kinds of religion. One is Boosting and the other is Knocking. To which congregation do you belong? The Knockers generally have the largest audiences in Perrysburg. We hope the organization of a new Boosters Club may cause a revival in that congregation.

The young lady in Cleveland who first gave her pet cat some strychnine and watched the death struggles of the cat before she decided to take a dose of the poison herself, must have kept the motto "look before you leap," and if the members of that great society of busy bodies, would try a few doses of their own gossip on themselves first, they might possibly refrain from giving it to others.

The Constitutional convention will be the next big show. Every citizen should be awake to the tremendous importance of this convention. The biggest and best men of the state should be selected as delegates. Men who are free and clear from any entangling alliances with corporation or special interests should be chosen. To make a new constitution for Ohio will be an event of historical importance.

Agriculture is now one of the common school branches. After September 1912, every teacher will have to be examined in this subject. Belgium, France, Germany and other countries long ago learned the value and necessity of such instruction. Inside of five years many schools will be using a part of the grounds for experimental plots, and agricultural demonstration.

An exchange very truly says that none but the initiated know the accuracy required in a printing office. The average reader who detects a misspelled word, or a letter upside down, feels that his work on earth is not accomplished until he calls the attention of the overworked editor to the glaring defect. He does not notice the thousands and tens of thousands of letters that are in place, or the multitude of words correctly spelled, but his eagle eye is glued on the one out of place. So it is with deeds. Man does a thousand good deeds and no attention is paid to them, but if he makes a mistake it is flashed all over the world. A lifetime may be spent in building up a reputation that may be wrecked in a moment.

## PERRYSBURG 10 CYGNET 1.

The Cygnet aggregation of ball players proved easy for the local boys Sunday, and they took the long end of the 10 to 1 score.

Charles started the game for Perrysburg and pitched fine ball for four and one half innings, allowing but three scattered hits and no scores. The only time that he was in a bad place was in the first inning. The first man up was hit, the second walked and the third man took his third strike at a wild one, which got away from catcher Hickler, and beat the throw to first filling the bases. The next three men were retired in one, two, three order, and the only agony of the game was over, Corbin, who relieved Charles allowed four hits and one score.

Cygnet's one lonely tally came in the eighth when Murphy singled, stole second and third and raced home when Snyder booted a grounder at second.

The support of the locals was superb, only one error being made, that by Kazmaier at first, but it had nothing to do with the scoring.

The features of the game were the hitting of Corbin, who secured three singles and a double out of five times at bat, and a fast double in the seventh, Reis to Noble to Kazmaier.

The visitors played good ball but in judgment in throwing bases was responsible for several of the Perrysburg runs.

The local line-up was as follows: Corbin, 2b and p; Reis, ss; Noble, cf and 2b; Snyder, lf; Kazmaier, 1b; Schlecht, 3rd; Shifford, rf; Cromwell, rf; Hickler, c; Charles, p and cf.

The score by innings:

	R	H	E
Perr's	3	10	1
Cygnet	0	0	0

	R	H	E
Cygnet	0	0	0
Perr's	1	7	5

The fast Warner club are to be here for a game next Sunday. This team is said to be among the fast ones of Toledo, consequently a good game is expected. Come out and see the boys repeat last Sunday's performance with the Warners.

## P. H. S. WINS FROM HASKINS.

Perrysburg High School team defeated Haskins High School in an uninteresting and one-sided game here Saturday, the score being 21 to 6.

It was such an easy thing for our boys that the game was not even exciting. Reis, who pitched for the home team, had his opponents fanning or hitting easy grounders throughout the game.

The score by innings:

	R	H	E
P. H. S.	1	5	3
H. H. S.	0	2	1

The Weston High School team will be here for a game next Saturday afternoon. This is the team that gave the boys such a severe beating a few weeks ago.

## MOOSE 6 NAPS 5.

The game between the Perrysburg Naps and the Moose's, of Toledo was taken by the Moose team, the score being 6 to 5. The contest was close throughout and was full of many exciting plays.

## The Five Senses.

In a primary school examination, over which I once had the pleasure to preside, one of the questions was with regard to the five senses. One of the bright pupils handled the subject thus, "The five senses are: Sneezing, sobbing, crying, yawning, coughing. By the sixth sense is meant an extra one which some folks have. This is snoring."—Woman's Home Companion.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

## Farms For Sale

18 acres 1-2 mile east of Perrysburg, fine house and barn with fruit of all descriptions. This would make a model poultry farm.

4 1/2 acres west of Perrysburg with house, barn and corn-crib, and also some fruit. One block from Electric road.

4 acres with good house of 7 rooms with cellar, good barn and chicken house. This is well tiled and only one block from electric road.

80 acres 4 miles south of Perrysburg with fair house, barn and other buildings. This is number one corn land.

117 acres 2 miles north of Swanton with good house and barn, cellar, and other buildings also windmill with barn yard tank. There is about 10 acres fair timber, elm and basswood.

80 acres of black sand in Gladwin Co., Michigan for \$1,200.00. A bargain. Also houses and lots.

## PRISONERS ARRAIGNED.

(Continued from First Page.)

Thomas McCarthy, indicted with Rolla Ferris for burglarizing the Froney store, came into Court Tuesday afternoon, and by his attorney, J. E. Shatzel, changed his plea from Not Guilty to Guilty, and asked the Court for leniency. The Court gave him a splendid bit of fatherly advice together with an undetermined sentence in the Mansfield Reformatory where he will have a chance to work out his own salvation.

Rolla Ferris, who was indicted with Thomas McCarthy for robbing Froney's store, came into Court Wednesday and changed his plea to "Guilty" and was sentenced to three years in the Ohio penitentiary.

After Albert Heyman of Grand Rapids township, had waived examination on the charge of assault preferred by John McKee, of Weston township, and had been bound over to the grand jury by Justice G. W. Callin last week, Mr. Heyman and Mr. McKee got together, settled their differences, and divided the costs; and the case was dismissed, the transcript of proceedings not having been sent to the clerk of courts.

The case of Klassen vs. Shaffer for money due on account was decided by the jury Wednesday morning by giving Shaffer a verdict for \$10.00.

## Superstitions About Babies.

In Ireland a belt made of a woman's hair is placed about a child to keep harm away. Garlic, salt, bread and steak are put into the cradle of a newborn baby in Holland. Welsh mothers put a pair of tongs or a knife in the cradle to insure the safety of their children.

## A Burglar's Awful Deed

may not paralyze a home so completely as a mother's long illness. But Dr. King's New Life Pills are a splendid remedy for women. "They gave me wonderful benefit in constipation and female trouble," wrote Mrs. M. C. Dunlap, of Leadville, Tenn. If ailing, try them. 25c at C. P. Chamberlain's.

## WASHINGTON LETTER.

(Continued from First Page.)

course objectionable to the Wyoming Senator, who the late Senator Dilliver said was the greatest shepherd since Abraham, and a few herdsmen in the sparse settlements in the northwest. It will also interfere with the Massachusetts factory monopoly, but it will result in great benefit to ninety-nine one-hundredths of the population of the United States.

One of the most important investigations ever made by the Interstate Commerce Commission is that of the express companies of the United States. This investigation is now under way. The commission has before it much material which it is at present studying and arranging. It is thought that the outcome will be a complete change in the express business of the country. Quite recently there was held in Washington a convention relative to the much talked about and written about parcels post. This was attended by distinguished men from various parts of the country. Some of them have made a thorough study of the express situation. It is somewhat remarkable that the resolution was passed by the convention favoring the complete absorption or control of the express companies by the government. Assuming that half the things complained against the express companies are sustained, it will not be strange if the demand for government ownership will be urgent after the Interstate Commerce Commission's report has been published. In the states of Iowa, Minnesota and California railway commissioners have recently made investigations into the operations of these companies. Business interests throughout the country are urging an examination relative to the express companies, insisting that their rates are exorbitant and that their practices are unfair. Last Fall, two hundred and eight commercial organizations petitioned the Interstate Commerce Commission to make the inquiry which is now under way. This commission, let it be understood, has full authority over express rates, regulations and practices. It is claimed by those who have thoroughly studied the subject that there is no reason whatever for the existence of express companies independent of railroad companies, and it is a well known fact that the railroad companies themselves are extensive stock owners. If they do not actually control the majority of stock of the express companies, and that they are using these companies to enormously increase their profits with the result of enormously oppressing the millions who have to resort to them as common carriers.

## BARNUM AND BAILEY'S SHOW.

The people of Perrysburg and vicinity are to be given an opportunity of seeing the Barnum and Bailey Greatest Show on Earth which will give two performances in Toledo on Saturday, June 10, 1911.

Many wonderful features, new to American circus-goers are promised. A company of 400 of the world's most prominent circus talent, principally European, will present an array of novelties, there will be an elaborate forenoon parade and a new menagerie. In the menagerie among many other wonders is to be found Baby Bumbo, the only giraffe ever born in America. It is just one year old.

Among the more sensational numbers on the long bill are John Duncander's company of bell-ringing horses, from England; the Fonelli company of Italian acrobats, the Siegrist-Silbon family of German aerialists, Jupiter the balloon horse, Charles the First, a chimpanzee bicycle rider and roller skater, the great Georgetti family of French jugglers, the Les Deko and Les Silvas family of French equilibristes, Noonan's brass band of elephants, Capt. Winston's troupe of riding and juggling seals and sealions. Berzac's company of mule and pony actors, Nederweld's dog and monkey circus, Victoria Codona, the world's greatest wire dancer and the fifty funniest clowns in the world.

The Barnum and Bailey circus is now at the zenith of success. The show carries its own dynamo illuminating the twenty tents and the show grounds with 4,000 incandescent lamps, arc lights, search lights and beacons.

The railroads will make special arrangements to convey visitors from outlying towns to Toledo June 10, on how day.

## No Ghosts Haunt Swamps?

No, Never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and cast out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at C. P. Chamberlain's.
